for. Bradbury said: "Yes, we are well and with the condition of the road more than pleased with the growth frand Rapids, and the patronage ich its citizens have extended to use growth of this city is something restable and we intend to make the with of our lines keep pace with it. Is ave all questions as to the maniment of the lines to our superindent. Mr Chaping, and are pertly satisfied with everything he has me. Mr. Cummings, who is with us, sarticularly interested in the inspection we have been making today, as it about to put a large amount opital into electric lines in Chicago d has gained much profitable insmation by examining the Grand pide lines." Mr. Bradbury stated the pital invested in the Consolidated the Railroad company was very arrly \$3,000,000.

Bountees the Capacity.

Mr. Hagar said: "We are perfectly staffed with the present condition of ar lines, but we don't think Grand anids people have done the fair thing wa in the way of weather. We are slighted with the operation of the set and the reception the public has sen it. We had a great plan on foot high we intended to carry out today, it the unpleasant weather spoiled it. Is had intended to show the people mething great in the way of taking sen to and from the resorts by putting on thirty-five new motor cars, such would have given us seventy is in all, enough to handle the Sunty traffic without hindrance either curselves or the public. Is growth of our line is something we is rather proud of. January 1 of this ar we had thirty-five cars running. I less than five months we have been liged to double the carrying service the line. The new cars will be put next Sunday. Seventy motor cars we the carrying capacity of 140 cable horse cars. At this time last year were running sixty-four cable and tree cars, so that you can see that we we more than doubled out facilities a year. The line on East street to be lake is about ready for traffic, but does not just suit us in some places, the entire line will be reballasted at leveled this week."

the entire line will be reballasted ad leveled this week."

J. P. Estabrook, also of the party, ill remain in the city until the middle the week. He will today begin sking very thorough tests of the wious kinds of moters and gearings ith a view to deciding which is the cost desirable for Grand Rapids' resta.

of heart, my means sure and quick consumption.

If you are nervous, restless, irritable, sleepless or wake after horried dreams, tired mornings, with a dull headache, bad taste in the mouth, sometimes discharges, and go about your employment without life, energy or ambition, desire to be alone, gloomy forebodings, a disposition to worry and fret about trouble ahead that never comes, spells of feeling afraid or uncertain. Sometimes low spirits, you are suffering from nervous debility and exhaustion of nerve power, which may end in utter prostration, insanity and death.

If you have a great sense of weakness and wearness, with tired limbs, numbness, trembing, prickly sensations, cold feet ond legs, you are advancing to that most serious disease—Paralysis.

If your head aches, feel numb and ired, with strange sensations, loss of memory, and you think with difficulty or you are sleepless at night, with drowsiness and duliness during the day, the nerve and brain fatigue may soon run into insanity or death.

If you have any of these feelings do not neglect them, or they will end in paralysis, insanity, prostration or death.

As you value your life do not neglect these warnings. Time and expe-
